HOSTING A WORKSHOP IS EASY!

If you have a facility willing to bring quality education to instructors in your local region, schedule a workshop now!

As a host, you receive the training with minimal work and no financial risk. There are no direct costs to you. As the host, you provide the pool time, a classroom, AV equipment, and assist with set-up before and after the event. The host facility also receives free registrations at the workshop for your instructors based on number of attendees. It's truly a win-win!

Aquatics and More creates the workshop brochure and mails it to your recommended list of attendees. We process the registrations, assume transportation costs to your location, teach the workshops, and cover all financial costs related to workshop handouts and mailings. *Aquatics and More's goal is to ensure a successful event!*

The following outlines the general process for booking a workshop.

Step One: The initial agreement and request for a training weekend should occur 4-6 months in advance. The timeline depends on how fast decisions are made and agreements are exchanged.

Step Two: Finalize which workshops you want presented. You may want to contact regional instructors to gain their feedback.

Step Three: Determine minimum and maximum number of attendees. Free registrations may be available for your facility instructors.

Step Four: An agreement will be sent outlining your customized workshop program with participant fees, requirements for number of attendees, and facility needs for the workshop.

Step Five: Disseminate flyer to your regional instructors and post flyer at facilities.

Step Six: Finalize details two weeks prior to the workshop to ensure a successful event (number of attendees, classroom and pool needs, etc.).

If you have questions, contact Robin at aquaticsandmore@gmail.com or call 360-931-0435.

Thank you for your support in bringing quality education to Aquatic Instructors in your area.
