

Anatomy of a Slider

These items show on the Home Page only, it is recommended that a maximum of 6 slides be active at one time. Each of these color items must be addressed BEFORE publishing a Slider Post.

This title is seen within the CMS only...

The screenshot shows the CMS interface for editing a slider post. The title 'Visitor & Business Guide' is at the top. Below it is the permalink: http://www.test-columnright.com/beavertonchamber/chamber_slider/visitor-guide2/. The 'Visual' tab is selected in the editor. The slide content includes a headline 'Visitor & Business Guides', a paragraph describing the goal of the publication, and a 'More...' link. The 'Custom Fields' section at the bottom shows a 'slider_order' field with the value '2'. Various elements are circled in red and blue to highlight specific features.

make sure there is
sufficient white space
for the text to live in.

slider_order = order of the slides

When new slides are added, you will need to go into each existing slide and update the order number. Any slides that are being kept in draft mode for use on a later date, should have the slider_order custom field removed.

Other Information

- Slider Posts can be edited after they are published.
- Slider Posts can be kept in "Draft Mode" allowing you to activate and deactivate commonly used slides. This helps keep the Home Page fresh without recreating the same slide over and over throughout the year. In the case of draft slides the slider order custom field should be deleted.
