Leadership Beaverton was established in 1997 as a program of the Beaverton Area Chamber of Commerce. Over 430 community leaders have graduated from Leadership Beaverton, and continue their commitment to the growth, development and prosperity of one of the fastest changing cities in Oregon.

While I spend much of my time as a City Councilor learning about my city and my community, Leadership Beaverton has provided an even more concentrated opportunity to explore aspects of the community in detail. It also lets me do this learning alongside others, and benefit from their shared perspective on what we're all seeing together.

—Marc San Soucie, Beaverton City Councilor

Leadership Beaverton has been an incredible experience! Not only have we learned the non-traditional services that make our community such a great place to live, the relationships that have developed with others in the program are invaluable.

Program Overview

Leadership Beaverton is a 9-month program consisting of one mandatory opening reception and retreat. During the opening session, each participant's leadership style is brought forth through an exercise called SIMSOC. Regular mandatory class sessions are held each subsequent month, usually the second Thursday. A graduation luncheon follows the final session. The agendas for each session are developed by the most recent class graduates, known as Co-chairs. Additional required and/or optional outside reading material are sometimes given to develop a better understanding of the month's topic.

Goals of the Program

Develop awareness of the community by examining the major system that contributes to patterns of life in the city.

Enhance leadership skills and qualities in participants that lead to creative and insightful community solutions.

Ensure broad community future leadership by recruiting emerging leaders with diverse social, economic and professional backgrounds.

Motivate and encourage participants to assume leadership roles in community affairs.

Participant Commitment to attending the opening retreat sessions, eight program days, graduation ceremony day, plus development and orchestration of a class project (some work outside of program days will most likely be required), and as a Co-chair in the program year following graduation.
